ABSTRACT

This report, based on 1969 photography, updates the previous Basic Imagery Interpretation Briefs on the three major electric power plants in Shensi Province, central China. The cutoff date for information in this report is February 1970.

At the Sian Thermal Power Plant 3, a section was being added to the . western end of the boilerhouse and generator hall on 1969 photography. No construction or dismantling was observed at the other Sian plant or the Pao-chi plant. On the latest photography all three plants were operating.
